Call for Papers

International Conference on Pervasive Computing

Pervasive 2002

August 26-28, 2002
Zurich, Switzerland

Organized by IBM Research and ETH Zurich

www.pervasive2002.org

Relentless progress in basic Information Technologies (IT) - microprocessors, memory chips, integrated sensors, storage devices, and wireless communication systems - continues to bring ever smaller, lighter, and faster systems-on-a-chip. As a result, beyond large hosts, PCs, and laptop computers, IT systems are now invading every aspect of life to the point that they are disappearing inside all sorts of appliances or can be worn unobtrusively as part of clothing and jewelry. This explosive spread of IT can be compared to the spread of electric motors over the past century but promises to revolutionize life much more profoundly than elevators or electric car windows ever did. At the same time, pervasive computing poses profound challenges including technical, safety, social, legal, political, and economic issues.

The objective of this conference will be to present, discuss, and explore latest technical developments in the emerging field of pervasive computing as well as potential future directions and issues. Leaving aside low-level hardware and transmission technology topics as well as peripheral socio-economic aspects, the conference will focus on technical infrastructure and application issues. It will include presentations, panel discussions, poster sessions, and demos on subjects like:

- System architectures and platforms for pervasive computing
- Middleware and pervasive computing infrastructures
- Mobile, wireless, and wearable technologies
- Innovative small computing and intelligent devices
- Emerging applications and mobile business issues
- Scenarios for information appliances
- Service discovery protocols
- Content distribution and delivery
- User interfaces for invisible and embedded computing
- Context awareness
- Security and privacy issues

Proceedings (containing the full papers) will be published by Springer-Verlag in the Lecture Notes in Computer Science Series. Extended or revised versions of selected papers will also be published in a special issue of the Personal and Ubiquitous Computing journal. Advice for authors and instructions for submitting a paper, poster or demo may be found at http://www.pervasive2002.org/submit.html

Important Dates	
Full paper and tutorial submissions due	**February 22, 2002**
Notifications to authors of full papers	**April 23, 2002**
Camera-ready full papers due	**June 7, 2002**
Short papers submissions and demo proposals due	**June 19, 2002**

Conference Committees

General Chair	Mahmoud Naghshineh, IBM Research
Program Chair	Friedemann Mattern, ETH Zurich
Program Committee	Emile Aarts, Philips Research Laboratories
	Arndt Bode, TU Munich
	Gaetano Borriello, University of Washington and Intel Seattle Research Lab
	Dave DeRoure, University of Southampton
	Oliver Haase, Bell Labs Research
	Stefan Hild, IBM Research
	Dirk Husemann, IBM Research
	Pertti Huuskonen, Nokia
	Alan Jones, AT&T Laboratories Cambridge
	Kazuhiko Kato, University of Tsukuba
	Tim Kindberg, HP Laboratories
	Kazushi Kuse, IBM Research
	Gerald Maguire, KTH Stockholm
	Joachim Posegga, SAP Corporate Research
	Apratim Purakayastha, IBM Research
	Jun Rekimoto, Sony
	Kurt Rothermel, University of Stuttgart
	Larry Rudolph, MIT
	Bernt Schiele, ETH Zurich
	Bill Schilit, Xerox Palo Alto Research Center
	Roy Want, Intel Research
Tutorial Co-chairs	Bernt Schiele, ETH Zurich
	Marisa Viveros, IBM Research
Exhibition/Demo Chair	Oliver Haase, Bell Labs Research
Organization Chair	Phil Janson, IBM Research
Financial Co-chairs	Phil Janson, IBM Research
	Marc Langheinrich, ETH Zurich
Registration and Local Arrangements Chair	Vlad Coroama, ETH Zurich
Publicity Co-chairs	Vlad Coroama, ETH Zurich
	Marc Langheinrich, ETH Zurich
